

Text Analysis Report

Generated: 31/8/2026, 8:12:32 pm

This report contains a word frequency analysis of the supplied text and readability metrics.

How to read this report:

- Count: number of times the word appears in the text.
- Percentage: the word's share of the total word count ($\text{Count} / \text{Total Words} * 100$).
- Original Text: the full input text is included for context. It may contain line breaks.

Notes:

- Very large texts may take time to generate the PDF. Please be patient while the file is created.
- For extremely large results, consider exporting only the top N words or using the export feature to download data.

Total Words: 2
Characters: 9
Sentences: 1
Readability (Flesch): 120.2

Original Text:
Test text

Word	Count	Percentage
test	1	50.00%
text	1	50.00%
